THIS IS UNEVALUATED INFORMATION

50X1-HUM

During April - December 1950 the following ships were built at the Varna Shipyard:

- The cargo ship, BLAGOI KASANOV, of 600 to 800 tons was launched in June 1950. Fuel oil is used to generate steam for the steam turbines. The bridge and the wheelhouse are located in the aft part of the ship. Two covered hatches are midway between the wheelhouse and the bow. There are no winches or other equipment on the deck.
- The 6,000 ton cargo ship, EMBA, which was built for the USSR, is made of reinforced concrete and has a steam turbine. This ship was launched in June 1950 and was fitted at Constanta. This is the first of three ships to be launched for the USSR.
- Five or six concrete ocean barges have been built in two sections for the USSR.
- One mine sweeper of 45 tons has a gasoline engine.
- Two or three steel barges for Danube traffic.
